Colors of Fall

Fall is Brick Red

**like a speedy scooter that goes down the hill like a racecar
a cackling fire that heats the air
and a swift bird that catches the worm**

Fall is Goldenrod yellow

**like a glorious sunset falling down the hill
an awesome mom's favorite color that helps me grow
and a tongue-burning lemon that is too sour to eat**

Fall is Burnt Umber brown

**like a descending leaf that walks the air and falls
a mouth-warming Reeses that tastes like heaven
and an imperial football that never stops moving**

Fall makes me feel ready and up
