

If I Were in Charge of the World

If I were in charge of the world
I'd cancel all money,
time limits on things,
horrible drivers,
and bad drugs

If I were in charge of the world
there'd be star ships with gravity that can move faster than light,
Teleportation,
and technology that can create anything

If I were in charge of the world
you wouldn't have fossil fuels,
you wouldn't have size limits,
you wouldn't have conflicts between countries
or "don't get too close to the cat"
you wouldn't even have restriction orders

If I were in charge of the world
an ice cube would be a fruit,
all numbers would be letters,
and a person who sometimes forgot to turn off lights,
and sometimes forgot to eat,
would still be allowed to be
in charge of the world
