Colors of Fall

**Fall is Peppermint Geranium Lake red
like an elderly pot that makes you feel young again
a pair of slippery socks that make you slide and fall on the floor
and a dreamy nightgown that says bedtime**

**Fall is Sunset orange
like an elegant lipstick that makes our eyes drop
a shimmery dress that looks like a disco ball
and a dusty pair of shoes that make you want to take a shower**

**Fall is Burnt Umber brown
like a glimmering pair of UGGS that make my feet warm
tights that are too tight
and a steaming mug used to drink tea from on bitter days**

Fall makes me feel warm outside and inside
